<tbody>
<tr>
<td>Chemical Tank Linings</td>
<td></td>
</tr>
<tr>
<td>Concrete Structures</td>
<td></td>
</tr>
<tr>
<td>Cooling Tower Piping</td>
<td></td>
</tr>
<tr>
<td>Pipelines</td>
<td></td>
</tr>
<tr>
<td>Fireproofing Primer</td>
<td></td>
</tr>
<tr>
<td>Insulation Primer</td>
<td></td>
</tr>
<tr>
<td>Marine (fresh water inland)</td>
<td>underside, sides and rakes of barges</td>
</tr>
<tr>
<td>Marine (saltwater, heavy marine)</td>
<td>underside of barges and ships</td>
</tr>
<tr>
<td>Marine (tank lining)</td>
<td>Ballast tanks, sour crude tanks</td>
</tr>
<tr>
<td>Oil Production</td>
<td></td>
</tr>
<tr>
<td>Oil Production (off shore)</td>
<td>Underwater portions of oil rigs</td>
</tr>
<tr>
<td>Rebars</td>
<td></td>
</tr>
<tr>
<td>Structural Steel</td>
<td></td>
</tr>
<tr>
<td>Transmission Poles</td>
<td>(underground portion of the pole)</td>
</tr>
<tr>
<td>Chemical Waste Treatment Areas</td>
<td></td>
</tr>
<tr>
<td>Municipal Waste Water Treatment Plants</td>
<td>Lift stations</td>
</tr>
<tr>
<td></td>
<td>Pumping stations</td>
</tr>
<tr>
<td></td>
<td>Control chambers</td>
</tr>
<tr>

</tbody>
</table>
**Recommended Uses:**
- Aeration basins
- Clarifiers
- Clarifier rakes
- Digestors
- Effluent channels
- Gas holders
- Grit Chambers
- Receiving wells
- Settling tanks
- Filters & screens
- Parshall flumes
- Sludge beds
- Sluice gates
- Penstocks
- Dam gates

Marine Structures

Marine Pilings

Underground Steel tanks  Acceptable for use with cathodic protection systems

**Chemical Resistance for Coal Tar Protective Coatings:**

- Crude Oil (sweet and sour)
- Fresh Water (non potable)
- Salt Water
- Brine (sodium chloride)
- Sour gas
- Inorganic Chemicals (dilute acids, alkalies, and salts)

**Chemical Resistance for Coal Tar Epoxy coatings:**

- Crude Oil (sweet and sour)
- Fresh Water (non potable)
- Salt Water
- Brine (sodium chloride)
- Inorganic Chemicals (dilute acids, alkalies, and salts)
- Hydrogen Sulfide
- Resistant to the chemicals listed in ASTM G20-72
Additional benefits of Coal Tar Epoxy coatings:

Passes the ASTM B 117 Salt Spray test
Low permeability
Excellent film continuity
Excellent coating adhesion
Minimum effect of Cathodic Disbondment (ASTM G42-75)
Excellent impact resistance (ASTM G14-77)
Excellent abrasion resistance

Contact your Coopers Creek Chemical Corporation sales representative to see if our coatings are right for you.
